(57) **ABSTRACT**

A method of delivering an audio and/or visual media file
including, for example, one or more of full or partial master
recordings of songs, musical compositions, ringtones, vid-
eos, films, television shows, personal recordings, animation
and combinations thereof, over the air wirelessly, from one or
more servers to an electronic device with or without an Inter-
net connection, said method comprising transmitting and
audio and/or visual media file in compressed format to said
electronic device, and wherein the electronic device is effec-
tive to receive said audio and/or visual file and playback said
audio and/or visual content on demand by a user.
